Building Brighter Futures for Vulnerable Children

JOB OPPORTUNITY AT WORLD VISION INTERNATIONAL – SOUTH SUDAN

World Vision is a Christian Relief, Development, and Advocacy Organization dedicated to working with Children, Families, and Communities to overcome poverty and injustice. World Vision serves all people, regardless of religion, race, ethnicity, or gender. All employment in World Vision is conditioned upon the successful completion of all applicable background checks, including criminal record checks where possible.

World Vision International - South Sudan is now seeking qualified and dynamic Individuals (**Man or Woman**) who are willing to share in our vision and promise to Children, to join us in the role below:

Job title: WASH Program Manager
Reporting to: Technical Manager Health, Nutrition and WASH
Location: Juba
Availability: As soon as possible

Purpose of the position:

The purpose of the position is to provide technical oversight to the WVSS WASH program to contribute to World Vision South Sudan's strategic objective of improving the health and well-being of the beneficiary community through improved access to safe water and sanitation. He/she will provide technical guidance and build the capacity of the WASH staff's WASH programming. Maintain strong coordination with WVUS and WV East Africa Regional Office.

ROLES AND RESPONSIBILITIES:

Coordination and Strategic Realignment

- Coordinate the timely implementation and reporting of all WVSS WASH programs to enhance the visibility of WASH programs
- Support the implementation of IPC projects and encourage WASH focal persons' participation in the State Task Force meetings.
- Ensure that WASH interventions are aligned with the WV partnership strategic direction, standards, child well-being outcomes, WASH technical approaches, and internationally recognized WASH standards in South Sudan.
- Participate in all WASH technical working groups and WASH cluster meetings and report back to the Director of Projects and Partnerships
- Ensure compliance with basic IPC principles at Primary Health Care levels, health facilities, and schools by ensuring safe waste disposal measures are observed.
- Coordinate with the WHO, UNICEF, Ministry of Health, Water and Sanitation, and WASH clusters on WASH emergencies, including IPC interventions.

WASH Construction Implementation Support

- In collaboration with Project leads develop design plans, working drawings, and technical specifications, bills of quantities (BOQs) as per approved standards by the Ministry of Physical Infrastructure for all construction works outlined in WASH projects design Revised
- Prepare tender documents for purposes of soliciting bids/tenders from contractors for the said project.
- Follow up, inspect, and ensure project materials are delivered as per specified measurements at field level in a timely way, and make follow in case of delay in the delivery of WASH equipment/ materials.
- Coordinate the design, supervision, and certification of construction of any public health facilities, institutional latrines, and community water filters in collaboration with relevant government ministry's technical departments.
- Coordinate hydrogeological survey, drilling, and equipping of boreholes.
- Support integration with other sectors (FSL, Education, Protection, Food assistance, Health, and Mainstream DRR/FCPA in WASH programming.
- Coordinate water quality (microbial, physical, and chemical) analysis for new and rehabilitated water points by the Government and WHO water quality guidelines.

Capacity Building

- Build the capacity of the WASH staff on the WASH cluster mechanism and WVSS representation in various technical working groups, among donors, UN agencies, stakeholders, and relevant line ministries.
- Support staff WASH capacity building training such as Drexel and DRI postgraduate Certificate programs.
- Support technically the training of WASH staff and community hygiene promoters on aspects of PHAST, CHAST CLTS, and other sanitation and hygiene models.
- Coordinate WASH staff capacity building in the zones and also conduct monthly WASH review meetings/ presentations.
- Staff management-update staffing/recruitment plan, Performance management. Staff leave management, LDR.
- -Compliance-Security trainings, Safeguarding, enthics and anit-corruption trainings.-Staff orientation, coaching and mentorship.

WASH budget and targets management and controls

- Tracking WASH activity/works progress against payment and work plans, and controlling the quality of the final construction outputs as per donor and user community expectations.

- Support SCM in identifying suppliers/ contractors and properly managing supplies/contracts for project implementation.
- Liaise with the WVSS Grants unit in tracking project expenditure, and targets, reviewing financial reports and technical reports, and addressing queries related to spending promptly.

Resource Acquisition and Management

- Ensure WASH is adequately funded to achieve WASH Technical Programme outcomes.
- Determine the WASH-related needs of the primary focus areas and funding deficit in collaboration with the Acquisition Team for focused WASH intervention.
- Work with the Grants Acquisition team to preposition, establish donor linkages, and develop and market fundraising products (concept notes, proposals) to mobilize additional funding for the WASH technical program.
- Manage WASH grants and PNSF projects to meet stakeholder's requirements and project objectives.

Programme Effectiveness and Quality Assurance

- Led WASH technical program integrated research and learning initiatives for generation of lessons learned and knowledge for enhanced WASH program effectiveness.
- Manage quality implementation and monitoring of WASH technical programs and projects within scope, time, and budget.
- Produce a consolidated annual/semi-annual National Report for the WASH Technical Programme for sharing with other stakeholders
- Support the documentation and dissemination of WASH promising practices from WVSS for future programming.
- Support the development of a data repository for the WASH technical program for better knowledge management and utilization.
- Coordinate review of the WASH Business Plan and capacity statement
- Submit 5Ws and 3Ws to the WASH cluster every month

Qualifications/Education/Knowledge/Technical Skills and Experience.

- Minimum qualification in B.Sc. in Civil Engineering or B.Sc. in Water and Environmental Engineering and M.Sc. in Civil and Environmental Engineering, Post Graduate Diploma project planning and management.
- Minimum 7 years experience in infrastructure works or Water and/or Sanitation Project implementation. And 3 years experience in fragile context programming.
- Experience in WASH IPC integration health facilities (Water-related diseases, EVD, and Cholera)
- Experience supervising construction teams/ contractors in water supply and sanitation construction works.
- Experience in conducting WASH assessments, including IRNA and MIRA Practical experience in designing and developing and review of BOQs
- Practical experience and knowledge of AutoCAD, ArchiCAD, and water applications
- Excellent report writing skills
- Excellent English communication skills (oral and written)
- Strong capacity-building and facilitation skills
- Experience working in an emergency context
- Cross-cultural sensitivity, flexible worldview, emotional maturity, and physical stamina
